KEY TO NUMBERED ANNOTATIONS

1. Floating dock containing a possible MAYAKOVSKIY Class Fish Factory Ship (LOA undetermined).
The floating dock appears to be employed to launch vessels produced in the long construction hall. This dock was previously positioned near the foot of, and in line with, the building way containing the second unit of the large new class naval ship. The hull configuration and position of the superstructure of the ship aided in this evaluation.
2. Possible MAYAKOVSKIY Class Fish Factory Ship alongside fitting-out quay (LOA approx 270').
The hull shape and position of the superstructure aided in this evaluation. See annotation 10, [REDACTED]
3. Probable DNEPR Class AR alongside fitting-out quay (LOA approx 370').
The hull outline, length over-all, superstructure placement, and bow lift extension contributed to this identification.
4. POLTAVA/PEREKOP Class Merchant Ship at fitting-out quay (LOA approx 510').
The number and placement of hatches and superstructure aft aided in this identification. See annotation 8, [REDACTED]
5. Probable UGRA Class AS alongside fitting-out quay (LOA approx 470').
The hull outline and topside detail help to identify this vessel. See annotation 7, [REDACTED]
6. New class naval ship at fitting-out quay (LOA approx 620').
No new topside detail is discernable from the previous mission. This ship is still berthed bow-out (to the south). A floating crane is working off the starboard beam. See annotation 6, [REDACTED]
7. Unidentified vessel in fitting-out slip (LOA undetermined).
This slip was previously occupied by a LAMA Class AEM. See annotation 5, [REDACTED]
